Absolute IT Solutions is a U.S. - based company with operations in North America and Europe. We have over ten years' experience and a great deal of expertise in providing companies of all sizes with IT services and IT management consulting. Absolute IT Solutions has developed enterprise software solutions for fields as diverse as logistics, transportation, human resources, manufacturing, finance, accounting, and customer relations. Other services include IT Alignment Consulting, IT Outsourcing Management, and Operational Research. Our list of clients includes several American Fortune 500 companies and New York Stock Exchange-listed corporations.

Our staff consists of Microsoft Certified Professionals, Solutions Developers, and Systems Engineers; also Cisco Certified Internetworking Experts, Networking Associates, and Networking Professionals. Absolute IT Solutions employs many methodologies, processes and tools required by ISO 9001 and CMMI level 2 or 3 standards of quality. We will continue to improve these practices as we strive to achieve ISO 9001 status. We also have full time employed an ISO 9001 Internal Auditor certified by TÜV Thüringen, Germany.

We are an active member in several business and trade organizations such as the Project Management Institute, the IT Governance Institute, the American Production and Inventory Control Society, the International Association of Outsourcing Professionals, the Tampa Bay Technology Forum, and the Association of Romanian Electronic and Software Engineers as well as national and local chambers of commerce.

Absolute IT Solutions is Microsoft Gold Certified Partner and IBM Business Partner.
